

THE NIGERIAN EDUCATOR

VOL 5 NUMBER 1.

JANUARY, 2016

AN INTER-DISCIPLINARY JOURNAL
OF EDUCATIONAL RESEARCH

PUBLISHED IN AFFILIATION WITH
THE FACULTY OF EDUCATION
THE UNIVERSITY OF CALABAR, NIGERIA

EDITOR'S COMMENT

The Nigerian Educator is a multidisciplinary, interdisciplinary and cross disciplinary journal that encourages the cross fertilization of ideas, mostly among researchers, academics and practitioners who find the capacity to think outside the box. It provides a platform for people to engage ideas and research findings in a manner that breaks the regular run of the mill approaches to issues that seem to have become “pathetically” irresponsible to addressing contemporary issues that define the reality of the theory and practice of education today.

With a wide array of seasoned researchers and academics cutting through all divides the Journal provides a forum for writers to put their ideas in perspectives that clearly resonates with their peculiar reading audience(s) blind peer reviewed, the Nigerian Educator is published online at ----- and in hard copy format, making it readily available online all through the year, and in print format twice a year. Articles can normally be submitted as attachment in MS word format to cestpiere@gmail.com or undiyaundeyeflorence@gmail.com other publication procedures and details can be found at www.thenigerianeducator.edu.ng

All authors should ensure that their submissions conform with all editorial guidelines and policies, including those on copyright.

Sincerely

Betieng, Peter A. PhD, FCA

Editor-in-Chief
